

Dear Michael,

You are invited to attend the official launch for General Physics' exciting new planning and scheduling tool [OUTAGE! The Planning and Scheduling Experience](#).

Intense and interactive, OUTAGE! The Planning and Scheduling Experience is a teambuilding simulation that allows participants to apply learned skills and knowledge so they can experience the benefits of planning and scheduling.

- Teams compete in planning and executing an outage
- Each team is given identical work orders, parts and an overhead crane
- The team that safely completes the largest amount of work wins
- Lessons learned makes the teams more efficient and productive

**Attend our [Webinar](#) launch party for OUTAGE! The Planning and Scheduling Experience, and receive a \$500 gift certificate for your game!**

**Two dates available:**

Date: [Friday, July 18, 2008](#)  
Time: 11:00 am, Pacific Daylight
