

GP's Sustaining Operational Excellence Webinar Series

Dear Brian,

Attend our next webinar with Mike Bresko of the [Operational Excellence](#) team at General Physics on how [Visual Management and 5S](#) will engage people in your organization, improve supervision and institutionalize Operational Excellence into daily life. This 45-minute webinar focuses on ways to ensure long-term success in your [Lean](#), [Six Sigma](#), [Reliability](#) or other Operational Excellence initiatives.

You will learn:

- Why Visual Management and 5S are fundamental when establishing a culture of Operational Excellence
- Why 5S often fails and how to stay on track
- The best method to identify what to put on visual management boards, sometimes called "glass walls"
- How Visual Management and 5S relate to and reinforce other elements of Daily Management
- The role of front-line managers and higher-level managers

Two dates available:

Date: [Friday, June 20, 2008](#)

Time: 11:00 am, Pacific Daylight Time
